Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. This action is in response to the communication filed on 9/8/08.
2. Claim 5 has been cancelled in this amendment.
3. Claims 20-22 were previously cancelled.

Claim Objections

Claim 1-4, 6, 8, 10-12 and 13-18 are objected to because of the following informalities: "A method" and "An apparatus", in the preamble, should be changed into --- the method and the apparatus, respectively.. Appropriate correction is required.

Claim 7 is objected to because of the following informalities: "level one or more" on line 7, should be --- level of the one or more ---. Such correction is required in claims 19, 23 and 25, on respectively lines 11, 8 and 8. Appropriate correction is required.

Claim 9 is objected to because of the following informalities: "data indicating" on line 6, should be --- data indicator for indicating ---. Such a correction is also required in claim 13 on line 5, in claim 19 on lines 5 and 7, and in claim 25 on line 4. Appropriate correction is required.

Claim 9 is objected to because of the following informalities: "receive announcement" on line 8 should be --- receive the announcement ---. Appropriate correction is required.

Claim 12 is objected to because of the following informalities: "dependent the timeout" on line 4 should be --- dependent on (upon) the timeout ----. Appropriate correction is required.

Specification

The amendment filed 12/04/07 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "wherein the first level is lower than the second level" does not have support in the specification. On the contrary, the specification supports "a second level being lower than the first level", but not otherwise. Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 2, 7-10, 13-14, 19 and 23-25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to

make and/or use the invention. The feature, "wherein the first level is lower than the second level" is not described in the specification, in a manner as claimed, and it is not clear what it means. For examination purpose, examiner interprets the phrase as to mean "wherein the second level is lower than the first level" as provided in the PGPUB (paragraph 0036) of the application.

Claims 1 and 24 recites the limitation "the quantity of announcement information" in lines 8 and 6, respectively. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 1, 7, 9, 13, 19, 23, 24 and 25 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

Applicant's arguments filed 9/8/08 have been fully considered but they are not persuasive. With regard to the issue of new matter rejection (of claims 1, 7, 9, 13, 19, 23, 24 and 25), regarding the feature reciting "wherein the first level is lower than the second level" (emphasis added), examiner does not find the argument one of convincing. In no wherein, in the specification, examiner finds a support for such a feature and/or no logic lends to assume either. Although the amended drawing of fig. 3, submitted with this response show as claimed, there is no such description provided in

the detail description of this drawing. In fact, the abstract and the body of the spec. provides description supporting the examiner's view. Even in the amended fig. 3, what is shown is a first level (RM), a second level (x1, x2, x3 --- xi and a third level, that sources out (originates) from level x3.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Meless N. Zewdu whose telephone number is (571) 272-7873. The examiner can normally be reached on 8:30 am to 5:00 pm..
